Taking the Problem out of your Pollution Accounts

CONTRACTORS POLLUTION LIABILITY (CPL):

CPL coverage is designed to address environmental liabilities associated with contractors' job site operations. CPL helps protect your insureds from liability when a covered operation results in a pollution incident. Targeting:

- General contractors including commercial, residential, excavation, grading, demolition, highway/road
- Trade contractors including paving, concrete, HVAC, plumbing, painting, roofing, abatement
- Specialty contractors including foundation, tank installation
- Remediation contractors

COVERAGE HIGHLIGHTS:

- \$2,500 minimum premium
- \$50,000 limit
- Job specific or annual basis
- Mold coverage options subject to individual underwriting
- Transportation coverage options
- Multi-year policy terms
- Optional E&O coverage

ENVIRONMENTAL SITE LIABILITY:

Provides coverage for unintentional pollution arising from a designated premise that is owned or occupied by the policy holder. Targeting:

- Commercial property owners, property developers, real estate portfolio managers/owners
- Schools/universities
- Manufacturers

STORAGE TANK COVERAGE:

- Coverage for underground and above ground storage tanks
